---

Tiffany:

We are working hard to complete our activities by the end of the month. We will likely have to come back and forth to get the remainder of the packaged waste disposed as we get it scheduled into the disposal facilities.

Thanks

Thank you Gary.

Any news on your time table?

We're working on a design workshop with urban planners on June 7th to having the residents start thinking about future uses for the site. However, the full clean up to residential standard is critical for the community. We're continuing to work with City, State and Federal officials to get a sense of the next steps after the EPA exhausts their allowable monies.

Please keep me posted on your side.

Best,

***Tiffany Hogue***
